Hola AMCM/MMC Amigos,

From 1610 on the saying was “Sweet April showers, do spring May flowers”. It seems that 2022 didn’t get the message.

As we sneer at the snow and dream of the days to come on the open road, missing the smells, sights and sounds one can only get on two wheels, have hope as spring will come. It may be summer by then, but it will come.

On the bright side we are holding in person meetings, planning in earnest for upcoming events, and have more time to finish polishing the chrome on our motorcycles. Even though we are meeting in person we still need to be cautious and take care of our health as COVID still is here and affects each of us differently.

We have done a soft launch of our Instagram account and did some postings as a trial, take a look and suggestions are always welcome. Also any pictures, with descriptions of what’s in the picture can be sent my way. I’m looking for motorcycles, events, historic pictures and anything else relating to AMCM and antique motorcycles. Search [antiquemotorcycleclubmanitoba](https://www.instagram.com/antiquemotorcycleclubmanitoba)

Unfortunately I will miss the April meeting as I have a work trip down south. I know the rest of the executive will do a great job.

Until I see you again.

Viajar con motos!

El Jeffe

Buy with confidence, own with pride.

If you value your hide you'll ride an old motorcycle

Count the old motorcycles on the road-  
the others on the roadside

Sincerely Yours  
Siggi Klan

The newly restored Tiny Robins Centennial Trophy was on display thanks to the vision and craftsmanship of Della and Jim Beattie. The Tiny Robins Trophy will feature the names of all the AMCM Presidents as well as winners of the Heritage Classic TT. Ralph Gibbs was the winner of this new event last year and now shares a row with other past MMC 50 lap winners from the 70's.

Della and Jim are working out the plans for this year's Heritage TT ride. TT stands for timed trials; it is not a test of speed it's about arriving at predetermined checkpoints on time and not getting lost. The rides are based on MMC endurance rides from the 60's. Your progress is tracked with time stamped photos. If you get your name on this trophy you will have earned it, just ask Ralph Gibbs!

The Dunlop Trophy will soon be on display at Jim's Vintage Garage and museum.

Thanks again to all involved for the great work done restoring this Manitoban motorsport treasure.

## 2021 Joe Sawtus Mileage Challenge Winner

For those who missed the November meeting, we announced that David Leduchowski as the 2021 Joe Sawtus Mileage Challenge winner. Thank you to all the AMCM members that tracked the miles driven on their vintage motorcycles from spring up until the finish line at our October meeting. All distances driven are converted to “miles” and adjusted or “bumped” depending on the age of the Motorcycle.

# Ray Houde 2022 Mileage Challenge

To participate you must be a member of the AMCM in good standing and listed in the 2022 AMCM Printed directory. New members that join too late to be included on the roster can take part next year.

On April 26<sup>th</sup> at the start of our 2022 riding season record the odometer readings on the vintage motorcycles you intend to ride this year. Take a digital photo of your odometer and the motorcycle as well.

Prior to the October 25<sup>th</sup> meeting record your odometer reading and calculate the miles ridden on your vintage bike(s) for the 2022 season. Each motorcycle gets a mileage boost depending on its age.

1911-1940	6 x recorded miles				
1941-1950	4 x recorded miles	Example: Don rides			
1951-1960	3 x recorded miles	1965 Yamaha YM1	300 Miles X 2	= 600	
1961-1970	2 x recorded miles	1974 Yamaha RD350	500 Miles X 1.5	= 750	
1971-1980	1.5 x recorded miles	1985 Yamaha RZ500	800 Miles X 1	= 800	
1981-1992	1 x recorded miles		Total Mileage Points = 2150		

AMCM member with the “**Highest Mileage Points**” wins a Trophy and a collectible cash prize! We would encourage all members to maintain an up to date photo of all your bikes. Get them on the road or on display. Drive safely, promote the sport and enjoy!

## Ray Houde 2022 Mileage challenge

Remember to record your odometer reading at the start of the 2022 season. The easiest way to record your mileage is with a cell phone photo. One at the start, no earlier than our April 26<sup>th</sup> meeting and a second one at the finish no later than our October 25<sup>th</sup> meeting. To be a winner you will need to have recorded your mileage

Year and make of bike	Odometer Start	Odometer finish	Difference	X	Mileage multiplier	=	Total
_____	_____	- _____	= _____	<b>X</b>	_____	=	_____
_____	_____	- _____	= _____	<b>X</b>	_____	=	_____
_____	_____	- _____	= _____	<b>X</b>	_____	=	_____
_____	_____	- _____	= _____	<b>X</b>	_____	=	_____

Last year's winner of the Joe Sawtus 2021 Mileage Challenge David Leduchowski receiving the mileage trophy and cash prize from our new AMCM President Jeff McNaughton. It was great to get back to regular meetings again at Jim's Vintage Garage in Headingly with an optional zoom meeting as well. Our next meeting on April 26<sup>th</sup> will mark the start of the Ray Houde 2022 Mileage Challenge. The mileage challenge winner gets to choose next year's honoree.

We congratulate all those that participated in last year's Joe Sawtus Mileage Challenge. Looking forward to a safe riding season.

## **We'er on instagram.**

I trust you've not been too buried in snow. I've started the AMCM instagram a few days ago and put a few posts on it using AMCM photos and some taken by Carol at JT's.

<https://www.instagram.com/antiquemotorcycleclubmanitoba>

FYI

- AMCM was taken, and including the words "antique" "motorcycle" would expose us to more people.
- You may notice the "of" is missing and "Manitoba" was shortened. You are only allowed so many characters in the name so I had to make it work.
- I used this as our description of who we are (again only 150 characters allowed):

**The Antique Motorcycle Club of Manitoba - the oldest motorcycle club in North America with ties going back to 1911(Manitoba Motorcycle Club)**

Take a look at the posts and get me your thoughts. My goal is 1-2 posts a day. According to analytics an account of our size should have no more than 14 per week. Once we reach 10,000 then 20 per week and when we reach 250,000 once per week.

Thoughts?

In instagram there are followers and following. Followers are people who want to see things we post, Following are people/companies we want to see posts of. For Following I was thinking of organizations that relate to us. Moto49, Save the Rust, CMMG, CVMG, Prairie Moto etc. I suggest we stay away from personal accounts as it may not relate to Motorcycles or groups we support.

If there are any more you can think of let me know? I was thinking about Spina Bifida however there are alot of them so we'll need to know what one our support goes to.

Once we are happy with this we should highlight this on the website and Facebook. We are already gathering followers. Feel free to share with your friends and family.

Jeff

# Did you Know

It's never a good feeling to see those flashing lights in your rearview mirror, knowing you might be getting a speeding ticket. But how do you think the first person to receive one felt? It's a safe bet he was very surprised.

The first speeding ticket issued to a motorist took place on January 28th, 1896, in Paddock Wood, Kent, in England. A constable spotted a fast driver named Walter Arnold speeding down the street. Since the constable didn't have one of the early motorized vehicles, he had to give chase on his bike.

When the constable stopped Arnold after a five-mile chase, he cited him for speeding. Arnold had been going four times over the posted speed limit. While that sounds like a lot, the speed limit at the time was a blistering 2 mph. Arnold was fined a shilling for speeding at 8 mph. Arnold could have avoided the citation, however, since the law stated that a person could go over the 2 mph speed limit if they had someone else in front of them waving a red flag to alert anyone on the street of their breakneck speed. The speed limit was later changed that same year to 14 mph.

Interestingly, Arnold was one of the sons of the William Arnold & Sons company, which later became the Arnold Motor Carriage Company in 1896. They had acquired a license to build Benz automobiles in the United Kingdom in 1895, and Arnold was driving one of these automobiles at the time of his speeding infraction in 1896.

# **"The Last Tuesday of the Month"**

"Hey guys! Have you seen the announcement on the AMCM web that the monthly meeting is on again at Jim's Garage?" The enthusiastic voice on the cell phones said. After two years of inactivity the "Southern Contingent" of the AMCM were coming to life again with transport organizer Chas making arrangements for us to go to a meeting again. We thought we would fill two cars: one from Winkler and another from Morden, because we have one new member and a couple of prospective ones, but with some drop-outs ended up with only one car for this first meeting. As usual we left in time to have supper together at Joey's Fish & Chips before going on to Jim's Garage in time for the meeting. Much pleasurable discussion in the car as always on that one hour plus trip, and more BS over supper, adds to the whole meeting experience. On this particular trip we all agreed that the attractive young waitress who served us at Joey's, had the most beautiful blue eyes we had ever seen!

The meeting went off well with the all-new executive, and the discussion in the car going home from the Southern Contingent (for what it's worth!) was that "our club is in good hands" Well done you new guys! Only small suggestion is that a sound system is used at future meetings. Details and dates were missed even by the youngest in our group and the only one who doesn't have hearing aids! The venue is ideal with impressive "patena" absolutely suited for an Antique bike club, and adequate parking outside for the "tire-kicking" inspection of bikes before the meeting, especially showing off new acquisitions and fresh restorations. There should be many of these at our first ride-in meeting, after two years of unseen shop activity!

**"The Last Tuesday of the Month"** will remain the commitment of the Southern Contingent and we will continue to contribute to meetings, events and the Bison Rally, as always. Hopefully next meeting will be a ride-in one and we will be well-represented there as well. If the weather doesn't oblige we might fill two cars this time!

(Please forgive us for "Tooting our own Horn" but nobody else will!)

Like Crocodile Dundee said about his huge sheath knife to the punks who had tried to rob him, **"Now THAT'S A KNIFE !"**

The Southern Contingent would like to boast to the city AMCM members, **"Now THAT'S COMMITMENT !"**

**Tom**
